

Student Development, CCA, UiTM

The office of CCA, UiTM's Student Affairs Division, also called HEP, is at UiTM Puncak Perdana. It is the centre of how the college manages its students and serves all three campuses in Selangor (Shah Alam, Puncak Alam and Puncak Perdana). The Student Affairs Division is an important part of UiTM's mission to turn out graduates with strong soft skills and great personalities who can meet the needs of the world.

Research and Innovation, CCA, UiTM

The office of Research and Innovation of CCA, located at Kompleks Ilham, UiTM Shah Alam, aims to boost UiTM's global renown by publishing significant discoveries, innovative solutions, and commercialising research products. This includes gathering expertise from diverse CCA study areas onto collaborative and synergistic platforms within specialty domains with internal and external parties.

Business Development Unit, CCA, UiTM

All of the Strategic Business Units, design, and arts-related services are brought together under one roof by the Business Development Unit. We run a business by making money off of our expertise and teaching our students what we've learned.

Welcome to College of Creative Arts

College of Creative Arts: Introduction

UiTM's College of Creative Arts (CCA) includes the Faculty of Art & Design (FSSR), Faculty of Music (FMu), and Faculty of Film, Theater & Animation (FiTA). This merger seeks synergy between related fields in knowledge development and active and healthy engagement in the latest transdisciplinary research for worldwide and domestic communities.

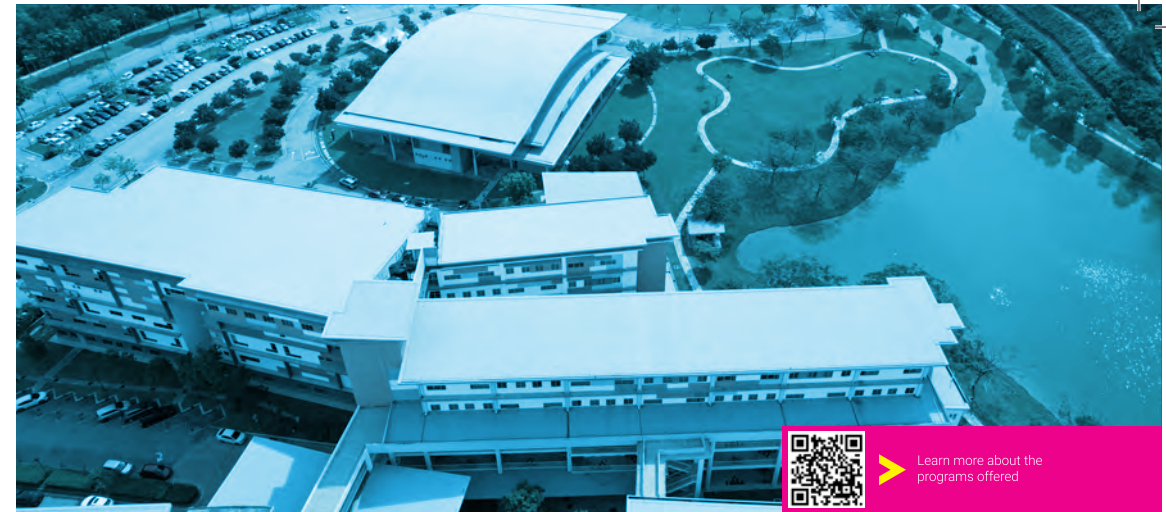

The College of Creative Arts offers six majors: Conservatory of Music, Digital and Imaging Arts, Design Studies, Fine Art, Liberal Arts, and Performing Arts. All academic fields offer diploma, Bachelor's, Master's, and Doctor of Philosophy degrees. The Dean of Academic and International Affairs' Postgraduate Studies division manages Master of Arts and PhD programmes.

CCA emphasises quality education and student empowerment to prepare students for globalisation. CCA members must demonstrate expertise in creating a sustainable ecosystem between academia and creative arts stakeholders, such as the community, industry, and alumni, by encouraging new thinking via research and practise.

This is the essence of the College of Creative Arts.
